

Services for the Elderly Awarded \$4,250!

Mission: *To bring together volunteers to help our fellow citizens remain connected to the community while at home.*

Program Funded:

Services for the Elderly has been in the Farmington community since 1965. Their efforts provide equity and rally community support to homebound residents. They proudly help over 1,000 clients each year across the entire state of Connecticut, helping those that are under insured, struggling with support services and assisting families during times of distress.

Their *Medical Equipment Closet* regularly has 10-20 people on its waitlist looking for in demand items like Wheelchairs, Transport Wheelchairs and Rollators/4-Wheel walkers. This grant will help purchase 10 Wheelchairs, 10 Transport Wheelchairs and 10 Rollators/4-Wheel walkers. Each of these items will be loaned for 3-month periods to ensure the availability for another person in need and to maintain the functionality and integrity of its safety.
